## THIS GLADIOLUS SITUATION

This season as never before, prices and quality are going to show a wide range. This will be especially noticeable in quality owing to disease, insect infestation, and growing conditions. Be very careful this season in considering any stock for its low price alone. Too often bargains in price develop quality costing dearly.

### WE OFFER

In the following list we offer only strictly top quality bulbs in every respect. We know this to be a fact because they have been grown for us by the most experienced men in the Southern Oregon district. Rigid inspection has been maintained throughout the growing and harvest season, and having accepted the stock only after all growing and curing operations have been completed, we have only the absolute cream of the districts crop to offer you. To further assure fullest cooperation all along the line we pay a premium for our stock yet the prices quoted below are in direct line with average market prices. Some stock may be offered slightly cheaper, but can you afford to risk quality when a firm of established reputation, on the ground watching district production will underwrite it for you at reasonable non-premium prices?

Fortunately our section is completely FREE OF THRIPS infestation. All our stock is grown exclusively for reproduction purposes; no flowers being cut for sale. If you wish to use bulbs for indoor forcing, just say so and we'll supply suitable stock at no added cost.

	No. 1	No. 2	No. 3	No. 4	No. 1	No. 2	No. 3	No. 4

# STRAWBERRY PLANTS

We have available this season over 500,000 of the finest Strawberry plants we have ever offered to the trade. Just a few days ago these passed the third and final state inspection of the season with an absolutely clean bill of health.

As usual plants are all bunched 50 in a bunch for easy handling or retail selling, and packed light and securely.
